Easy Fit SmartPhone Alarm

SmartPhone Alarm Kit

Part No 22100

The SmartPhone Alarm is one of Yale's top of the range home alarm systems, and it can be operated using your own iPhone/Android SmartPhone or via a standard PC web browser. Upon triggering, the PIR camera can take an image of the room and send it direct to your phone for visual confirmation of what has caused the alert.

Upon alarm triggering, the external siren will start sounding and you will be notified by email and push notification (iOS only) on your smartphone. There is a wide range of accessories available for this system including the clever power switch accessory, allowing you to turn lights, appliances and other electrical items on and off using your smartphone.

The kit contains:

- 1 x Control Box
- 1 x Siren Box
- 1 x PIR
- 1 x PIR Image Camera
- 1 x Door Contact
- 1 x Remote Keyfob
- 1 x Keypad

1 Download the phone app 'Yale Home System', then connect the control box to your router

2 Mount control box, siren and pre-programmed accessories

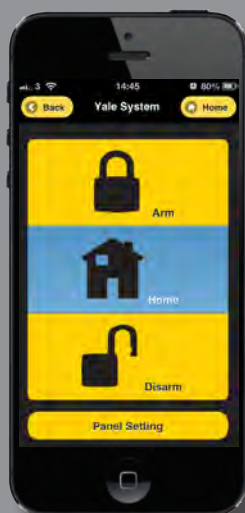

3 Test & GO

The SmartPhone Alarm Kit app in detail

Home Page
Access all your alarm settings/operation through the home screen.

Arm and disarm screen
Remotely arm and disarm your alarm using your SmartPhone

Image captured from PIR camera
Upon alarm triggering, Images are sent directly to your SmartPhone. Videos can also be viewed when the PIR Video camera accessory is added to the system.

Please Note:
For use in home with broadband connection. Homes with a router required with one free wired network port.

Compatible accessories:
iOS 4.3 and above. Android 2.2 and above. Internet connection required.

The SmartPhone feature requires our central server. Yale offers no guarantee on the availability of our server. Yale aims to maintain a server until 2018. We would contact individual users via email should this situation change.

Alarm event is notified by email, push notification event (iOS only) and SMS message. We offer 20 free SMS messages per account, after which additional SMS messages would be chargeable.

The following list of accessories are compatible with ALL Yale Easy Fit Alarms

Product	Details
 <p>PIR Movement Detector 22120</p>	PIR movement detectors are placed in the corner of rooms that could be vulnerable to intruders. When the alarm is set, the infrared sensor will pick up movement and activate the siren. (See below for Pet friendly PIR)
 <p>Pet PIR Movement Detector 22121</p>	This pet friendly PIR activates the alarm system when larger movement is detected. When placed 2m from the ground the detection range is 110 degrees with a 12m radius. This unit is ideal for homes with one small pet (less than 20-25Kg).
 <p>Door/Window Contacts 22115</p>	Activates your alarm when a door or window is opened. Particularly suitable for homes with pets.
 <p>Keypad Controller 22130</p>	Ideal as a secondary controller. Can be fixed to the wall or carried around your home. A panic can be signalled from this device.
 <p>Remote Control Key Fob 22125</p>	Handy addition to your alarm giving you greater flexibility. Enables you to arm, disarm and signal a panic remotely.
 <p>Smoke Detector 22145</p>	Activates your alarm when smoke is detected.
 <p>Panic Button 22140</p>	Activates your alarm when button is pressed. This device can be fixed to a wall or other surface.

The following list of accessories are ONLY compatible with the Yale Easy Fit SmartPhone Alarm Kit

Product	Details
 <p>PIR Camera 22110</p>	Ideal for securing a single room, this accessory activates the alarm system and captures still images when someone moves around your home. The image can be viewed using a compatible smartPhone. You can also request an image to be sent to your smart phone at any time.
 <p>PIR Video Camera 22111</p>	Ideal for securing a single room, this accessory activates the alarm system and captures a 10 second video clip when someone moves around your home. The clip can be viewed using a compatible SmartPhone. You can also request a video clip to be sent to your smartPhone at any time.
 <p>Room Sensor 22155</p>	This Room Sensor measures the room temperature/humidity and relays this information to a compatible SmartPhone. This information is also displayed on the built-in LCD screen.
 <p>Power Switch 22160</p>	This Power Switch allows users to remotely switch on and off household appliances using a compatible SmartPhone.
